A NEW PRODUCT IN OUR RANGE

Settimo Milanese –

Bertocco Air Truck Technology srl, together with Erentek Ltd., are pleased to announce the addition of an important product to the Bertocco range of locking cylinders for self-steering axles. Our new Type 12 brake chamber C4261001 is interchangeable with original part numbers 0203273800 + 0306000130. This new product has a unique internal design resulting in excellent stress-resistance, and for this reason our new locking cylinder has been adopted by prominent self-steering axle builders.

Other Bertocco Newsletters will be issued shortly, showing more new and interesting products which will be coming to the market soon.

By adding a young and dynamic touch, Bertocco Air Truck Technology intends to be responsive to the demands of our clients and to be faithful to our tradition of quality throughout the current expansion of our range.

We would like to thank you for your continuing loyalty to our products.
